

# Gonorrhoea

---

Version December 29.12.2017 / PV

This document represents the development process of the above mentioned guideline published on behalf of the Swiss Society for Infectious Diseases (SSI).

## Type of Guideline development

This guideline was developed and published in 2014 on behalf of the SSI prior to the publication of the new Guideline development process (7.5.17). Therefore, the published guideline was used as the reference document without further changes.

The short version of the guideline digest was prepared based on the published guideline by two coauthors.

The regular review process of the *guideline digest* took place in November / December 2017.

## Relevant information regarding the development of the guideline

1. Reference Document for the Guideline

Ge: Gonorrhoe: neue Empfehlungen zu Diagnostik und Behandlung, [Schweiz Med Forum](#) 2014;14(20):407-409

Fr: Gonorrhée: nouvelles recommandations en matière de diagnostic et de traitement, [Forum Med Suisse](#) 2014;14(20):407-409

2. Authors

L. Toutous Trelu, D. Oertle, P. Itin, HJ. Furrer, C. Scheidegger, M. Stoeckle, P. Schmid, E. Bernasconi, M. Cavassini, E Boffi El Amari, C. Kahlert, P. Vernazza, J. Fehr, A. Calmy, N. Low, G. Martinetti Lucchini, P. Tarr

3. Author's Conflict of Interest

No conflict of interest declared

4. Date of publication of guideline digest

28.12.17

5. Expected time span for revision of guideline

6 months\*

\* During the review process within the SSI it became apparent that the original guideline will need some adaptations. A review of the guidelines will be scheduled for 2018.

## Switzerland-specific modifications from the original reference guidelines

n.a. (Reference guideline was specifically developed by the authors for Switzerland)
